NOTES:

Chico is a sweet and sensitive boy who is looking for a patient family to help him feel safe and loved. New people and unfamiliar environments can be a little overwhelming for him, so he appreciates a gentle approach and the opportunity to build trust at his own pace. Shelter life can be especially stressful for dogs like Chico, and we would love to see him settle into the comfort and consistency of a home. We believe Chico may already be potty trained and could enjoy sharing his home with a well-matched canine companion. If you have a little patience and a lot of love to give, Chico might be the perfect addition to your family!
